### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

### **IN THE SPECIFICATION**

**Before the first line of the specification,** ---This application is a 371 of PCT/JP03/02978, filed March 13, 2003.--- has been inserted therein.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: One reason for allowance is that the claimed product claims, i.e., drawn to the torsion bar, require the specifics of the manufacturing method resulting in a structural characteristic that is not shown by the prior art. Accordingly, claims 7, 9, 14 and 15 define method steps within the apparatus that establish attendant structural features relating to the cut reduced diameter length of the drawn steel torsion bar.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
